CHARACTER FLIP BOOK: Instructions

Step 1: Choose between the color version or the b/w version. Print out the pages. Confirm that they printed out properly (The labeled names should be staggered).

Step 2: Stack your flipbook. Stargirl's page belongs on the bottom of the stack, and the cover page belongs on the top. Staple three times along the top.

Step 3: Starting with the cover page, and then working your way down, cut along each of the dotted guide lines.

- Tips:
- You can pre-assemble these before distributing to students, or you can simply have the students assemble their own!
 - Also, you can either have each student complete their own, or you can make this activity a collaborative effort. For example, divide your class into 8 groups of 4. Have each of the groups complete ONE of the pages. Then compile each group's work to make one flipbook.
 - One great option is to make the flipbooks before you start reading, and have the students work on them gradually, as you work your way through the book. Do a little here and a little there.
